NATIONAL GOVERNMENT

Kocaeli is dedicated to sustainable development, with efforts focused on reducing environmental impact and enhancing energy efficiency. The city has implemented a Sustainable Energy and Climate Action Plan, crafted with community input, targeting emissions reduction and renewable energy expansion. These initiatives aim to support a greener, climate-resilient future for Kocaeli

Kocaeli is dedicated to creating a healthier and more sustainable urban environment through a range of forward-looking initiatives. Efforts to enhance environmental protection include cleaner waterways, improved waste management, and expanded recycling practices that contribute to a cleaner city. At the same time, urban mobility is being reshaped with a focus on reducing emissions, easing traffic, and encouraging more active, people-centered transportation. These projects aim to improve quality of life, protect natural resources, and ensure a greener future for all residents.
