Joined Covenant of Mayors initiative

2019

Solar Power Initiatives

In 2024, Yenimahalle completed the installation of five solar power plants (Solar Energy Systems) on market rooftops, enabling the district to meet its energy needs through solar energy. Currently, efforts are underway to develop solutions aimed at reducing energy poverty among residents in the district.

KEY INTERESTING FACTORS

- Industry
- Commercial Hub
- Infrastructure

KEY AREAS FOR COOPERATION

- Public Transportation
- Urban Development
- Industrial Innovation

TOPICS OF INTEREST

- Business Models and Financing Schemes
- Financing Sustainability Projects

Yenimahalle Province signed the Covenant of Mayors in 2019 and is preparing its Sustainable Energy and Climate Action Plan (SECAP) to enhance energy efficiency and reduce emissions

Commitment to Sustainable Development and Innovative Solutions

COLLABORATION

- COORDINATING W/ LOCAL STAKEHOLDERS
- COORDINATION W/ INTERNATIONAL PARTNERS
- NATIONAL GOVERNMENT

Yenimahalle is committed to sustainable development, focusing on reducing emissions, promoting renewable energy, and enhancing green spaces. The district aims to create an eco-friendly urban environment, with sustainability initiatives designed to improve air quality and support a healthier, more resilient community.

Yenimahalle is prioritizing sustainability with projects that focus on reducing emissions, increasing renewable energy use, and enhancing urban green spaces. Committed to long-term environmental goals, the district is exploring partnerships and sustainable action plans to address climate challenges and support a healthier, resilient community for the future.

POTENCIAL AREAS

- REDUCING EMISSIONS
- ENERGY GENERATION
- PROTECTING ECOSYSTEM

Implementation of Sustainable Projects

Collection of Solidwaste Project (2020)

Collection of Mobile Waste Project (2020)
